

## Research results of European Approaches to Inter-Generational Lifelong Learning 1st EAGLE Newsletter

EAGLE concentrates on the field of inter-generational as well as later life learning processes within the frameworks of formal and – of specific importance – non-formal, informal and autonomous learning.

*In this issue:*

1. First Results online
2. The International and European Future of Intergenerational Activities
3. About the project

### *The first EAGLE Results are online!*

Explore the European and National Overviews on Policies, Programmes & Initiatives (<http://www.eagle-project.eu/welcome-to-eagle/policies-programmes-initiatives/>) and the EAGLE Practice Showcase on intergenerational learning: <http://www.eagle-project.eu/welcome-to-eagle/practice-showcase>.

### *The International and European Future of Intergenerational Activities*

Discuss with us 'The International and European Future of Intergenerational Activities': please, consult the Discussion Paper and click here: [http://www.eagle-project.eu/welcome-to-eagle/Final\\_Workshop\\_Summary.doc](http://www.eagle-project.eu/welcome-to-eagle/Final_Workshop_Summary.doc) for your contributions, feedback and reflections.

### *About the project*

What is the potential as well as the limitations of trans-, inter-generational formal and informal learning? Are there any policies, concepts, analyses, frameworks, experiences in place and empirical evidence available in this topic? Where can you find the models of good practice developed in order to formulate policy and practice recommendations? These are the core questions in the project entitled EAGLE or 'European Approaches to Inter-Generational Lifelong Learning'

For more information on the project, please contact:
